Training Course Verification form continued...

Less than 50% of the lecture content of the course may be done using an asynchronous format. This would include any pre-recorded lectures shown as videos or posted to a platform such as blackboard. Content for online learning may include the following:

- Characteristics of Dyslexia
- History of Dyslexia
- ALTA Ethics
- Human Growth and Development
- Prerequisites for Reading and Writing
- Synthetic and Analytic Phonics
- Book Reports/Journal Articles
- Overview of 504 and IDEA
- Federal and State Laws
- History of Orton Gillingham
- Brain Research and Dyslexia
- Evidence-based Research Data
- Formal Report Writing Instructions
- Other topics closely related to Dyslexia

Practicum: Supervised clinical teaching is embedded in the coursework and includes observation of an individual teaching in a one-on-one situation or a small group according to ALTA standards. Supervised clinical teaching hours can be observed using varied electronic formats, and/or face-to-face. Supervised observations should be performed between trainee and dyslexic student unless under special circumstances. Proficiency checks during training should not count as supervised demonstrations.

Course Syllabi and Coursework must include course description, grading and other policies, list of published materials used in course work (textbooks, kits, etc), required reading list-bibliography (books, journals, articles, etc), and course agenda for intro and advanced levels as appropriate.

I, _____ verify that this training course meets all of the requirements of a comprehensive multisensory structured language education program consistent with the standards of ALTA and that the information regarding instructional hours, clinical teaching hours, demonstrations of competency, clinical teaching documentation and proof of the trainee's progress and competency as specified within the ALTA requirements for Certified Academic Language Therapy or Practitioner levels supplied are true and correct.
